**Notes:**

1. The schedule is per calendar day, applicable for every month of the year.
2. If stage 6 is declared, then stages 1-6 will apply on the schedule and stages 7-8 will not apply for a specific period as announced by Eskom.  
(E.g. On the 10<sup>th</sup> load shedding will be from 00:00-04:30 ; 10:00-14:30 ; 16:00-20:30)
3. If stage 2 is declared, then stages 1-2 will apply on the schedule and stages 3-8 will not apply for a specific period as announced by Eskom.  
(E.g. On the 10<sup>th</sup> load shedding will be from 16:00-20:30)
4. If Eskom moves to a higher or lower stage, the same principle will apply from the time indicated.  
(E.g. On the 10<sup>th</sup> , if currently on stage 2 at 12:00, and Eskom announced stage 6 from 12:30, then from 12:30 load shedding will occur as per the schedule)
